Pitchboard

Short Elevator Pitch

William Cosnowski III personal portfolio exhibits his past projects, future projects, job experience, and overall information about himself.
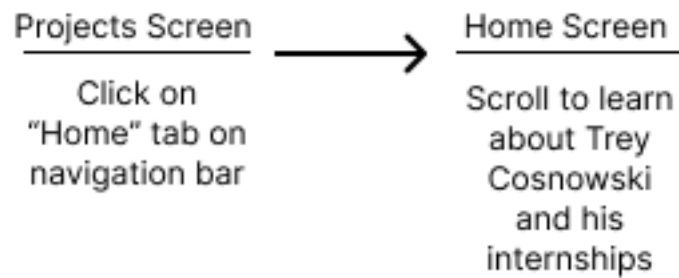

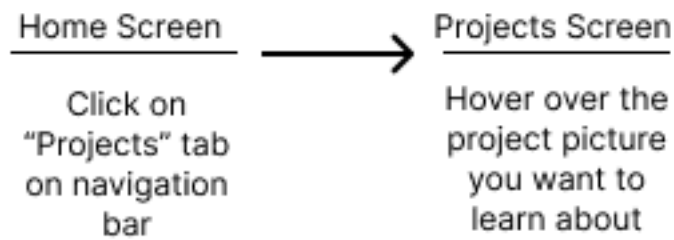

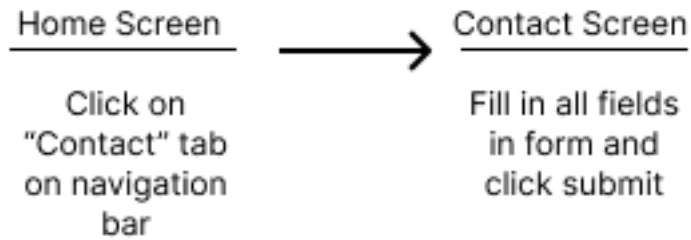

Long Elevator Pitch

William Cosnowski III personal portfolio will give the user a better understanding on who William is and what his skills are. The website will have different sections including his past projects, future projects, job experience, and information about who he is. The past projects section will have his projects that he has worked on in college and personal projects. The future projects section will show what he plans on working on. The section about his job experience is a way for future employers to see the type of companies he has worked for and the skills he possesses. Lastly, the section about himself is a great way to see William's hobbies, where he went to school, and other information about him.

Personas

- First Persona: Future employer looking to hire William
- Second Persona: Friend of William wanting to see his work
- Third Persona: Developer looking for someone to start a project with
